

Kinect Online offers a client centric suite of energy reporting and data management services.

- Improved quality and accuracy of energy data and reporting
- Accurate, timely data results in improved risk management/hedging decision making
- Internal cost savings – people, data storage, reporting

Kinect Online will track and report your energy usage and costs to help you better manage your business and meet your strategic energy management goals. Our data management services include invoice review and payment, invoice error correction, carbon management tracking and reporting, benchmarking, consolidated invoice generation, budget tracking, sales tax exemption confirmation, and forecasting reports.

**THE KINECT ONLINE DATA  
MANAGEMENT PLATFORM IS DESIGNED  
FOR MAXIMUM FLEXIBILITY**

Kinect Online is a secure client website providing a capability-rich platform featuring in-depth reporting and data analysis. The platform provides reports on energy purchases, risk positions, market pricing, pipeline information, expert analysis, energy industry intelligence, accounting data, supplier invoice data, and much more.

### On-line reporting

Our on-line reports provide you with secure, customized energy information and resources to help you make informed energy decisions. Natural gas, electricity, water, alternate fuels, and other utility reporting data is stored. Client-specific reports include usage, nominations, storage, energy budgets, position reports, and many others. Clients are able to generate customized reports with a high level of flexibility.

### Customized energy reporting

Kinect Online has been designed to meet the needs of a diverse range of companies, all with unique requirements. We know that single solutions do not meet the needs of all business models. That is why we have engineered Kinect Online, a ground breaking energy reporting platform, to provide customization and flexibility. Executive level insight into trends and patterns are produced based on data-driven insights. Users can view in-depth market information including forward spot pricing updated daily from global energy markets.

### Invoice processing

Kinect Online manages your utility, supplier, pipeline and other energy invoices. Our professional analysts check for volume and pricing accuracy. If errors are found, we resolve them with your suppliers. Your consumption and cost information will be stored in a secure database. In addition, we pay your invoices upon request.

### Consolidated energy reports

Kinect Online's consolidated energy reports show energy usage, dollars spent, and unit costs monthly, annually, and historically. We combine cost and usage data on one summary invoice to simplify review. These reports can identify trends to make budgeting easier. You are able to view your reports on-line and access year-to-year cost comparisons.

### Energy data services
