

Want to better protect your drivers from **COVID-19** exposure?

Let us take fleet fueling into our own hands.
You don't have to touch it.

Also known as mobile fueling or wet-hosing, **Onsite Fleet Fueling** is a service where we deliver fuel directly into your vehicles or equipment. Deliveries are scheduled when your fleet is "home," day or night. Your drivers come to work, and their fleet is ready to go.

Contact-free delivery to keep your employees safer and your fleet cleaner

Fewer issues with tank regulations, insurance, and contamination

No accidents and less theft to worry about at the pump

Cost control with accurate fuel usage reporting

No driver downtime: fuel comes to you, so your vehicles get straight to work

Features

Deliveries take place at a time convenient for you

We can deliver multiple products from the same truck

You can adjust delivery frequency and gallons as needed

Every vehicle is scan-coded and included in detailed reports

“ We’ve done our own studies to compute the time when a driver is standing at a gas pump, filling the vehicle. It can add up. And that was a big issue for Shamrock for many years because it’s time and money. World Kinect takes what’s a large requirement for us and places it in their own hands. We don’t have to touch it, and that’s the nice part about it.”

*Bob Leslie, Purchasing
Shamrock Cabinets, MO, USA*

Could onsite fleet fueling be right for you?

Consider whether:

- Your drivers are unnecessarily exposed to viruses at fuel stations.
- Your fleet has long periods of downtime when on-site fueling can be done.
- Your vehicles are staged in a place easily accessible by a fuel truck.
- Your fleet is growing, making it hard to keep up with on-site tank sizes.
- You require better reporting on fuel usage and costs.

To determine whether Onsite Fleet Fueling could work for you, contact our experts at World-Kinect.com.
