

Crisis Prevention + Readiness

Trusted, high-quality fuel supply and reliable back-up power when it matters most. Next time fuel supply gets tight or the power goes out, what's your plan?

World Kinect Energy Service's offers assurance when you need it most, through a Crisis Prevention + Readiness Plan designed around you.

Let our fuel & energy experts help build confidence in your business continuity plan, ensuring you have what you need when it comes to:

Back-up power generation (equipment and fuel)

Supply contracts that include priority deliveries during periods of peak demand

Fuel pricing methodology that helps mitigate price spikes

Customized business continuity plan around fuel and power

Access to an in-house meteorologist for monitoring climate patterns and reliable weather updates

A single point of contact that is there for you when you need support

“World Kinect Energy Services Crisis Prevention and Readiness Team guarantees your sustained fuel supply no matter the crisis or situation. Your priorities are their mission.”

*Isabelle Levin
Vice President
Kimbles Logistics Services LLC*

How it works

World Kinect Energy Services Crisis Prevention + Readiness services offer you the peace of mind necessary to navigate whatever comes your way. Be ready, next time disaster strikes or the power grid goes offline.

BEFORE:

Our industry experts conduct a comprehensive survey of your existing power sources, fuel operations and infrastructure. We then help identify and document what you need in terms of backup power and supply, including contract options, as part of your business continuity planning.

DURING:

As the next large scale natural disaster or emergency approaches we become your energy first responders. You'll know who to contact, where to turn, and what to expect when the power goes out or the fuel supply tightens, even when time and budgets are most strained.

AFTER:

Count on us to help you execute that part of your business continuity plan that accounts for phases and recovery back to normalcy. We help you identify lessons learned, and incorporate those back into your emergency response plans.

Are you prepared?

The next disaster or emergency is not a matter of if – it is when. Statistics show it will cost you less to prepare for and address your fuel and power needs now. Don't wait until the next "big one" hits.

Ask yourself:

- Do you have an up-to-date business continuity plan that ensures functioning business operations if the power grid goes down?
- What back-up power equipment and storage solutions do you have?
- Who is your back-up fuel and power provider and what is their response time?
- When was the last time checked your back-up power needs?

The team at World Kinect Energy Services is here to help. With the global strength of a Fortune 100 company and the personal, local support needed to address your specific needs, we're uniquely positioned to be there when others are not. Contact us today.

World Kinect Energy Services is trusted by 65,000 customers worldwide. With 35 years of experience delivering more than 50 fuel and energy products on time and in full, we help you solve energy challenges. We are Everything Energy.
