

# Manage Every Drop with **FleetConnect** a World Kinect Energy Services Solution

FleetConnect is revolutionizing the fleet fueling industry with a reliable and effortless way to quickly fuel trucks, equipment, ships, and/or planes, then transmit the fueling information wirelessly to the accounting office.

Eliminating the stress and hassle of manual ticket writing and posting will provide your employee's freedom to complete their daily tasks and ensure 100% data accuracy and integrity.

**Operational Efficiency**

**Data integrity**

**Eliminates risk for transposition errors**

**Captures every drop of fuel dispensed**

**Suitable for any company with a fleet of vehicles or equipment**

## Features

Paperless, secure, web-based system

RFID technology that loads data directly into FCdelivery.net

Fully automated to prevent mis-fueling and theft

Accounts for product type, date and time of fueling event, fueler ID, vehicle ID, gallons dispensed, on-road/off-road vehicle, etc.

Durable and weather-resistant equipment in mobile & stationary options

*“Life before FleetConnect was very different. Each truck driver would have to manually turn the pump on, fuel the equipment, collect a receipt, manually write down the fuel type, machine number, and other information, and then turn the receipt in at the end of the day where the data was then manually entered, resulting in a journal entry. FleetConnect has allowed us to save time and money by simplifying our fuel management process for our on and off-road equipment.”*

## How it works

### scan

Using RFID technology, we tag each vehicle or other fueled equipment so it can be scanned using either stationary or mobile readers.

### fuel

Authorizes use based on PIN codes, automatically releasing the proper fuel type and set amount if determined.

### track

Information is uploaded to a secure web-based account, ready for download into most back-office programs.
