

World Kinect Online Portal

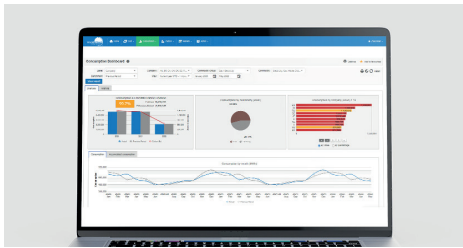

Centralize your electricity, natural gas and carbon management into a single view.

Create insights from complexity

No more searching for energy and carbon information across your organization. World Kinect Online is your single source for energy consumption, cost, and carbon status. Let us aggregate, standardize, and compare your disparate sources of data – all in one place.

Exclusive to World Kinect customers, the portal is easy to use, intuitive and lets you create personalized reports on the data that is most insightful to your business. **Speak to your Account Manager about access today.**

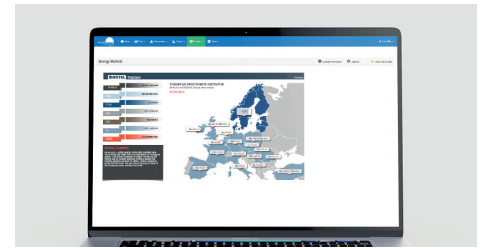

**One Partner.
Everything Energy.**

Better understand your usage with central visibility to energy bills helping you better budget and improve efficiencies.

Get a clearer picture of your energy costs with invoices and data on your costs, usage and unit prices together in one place.

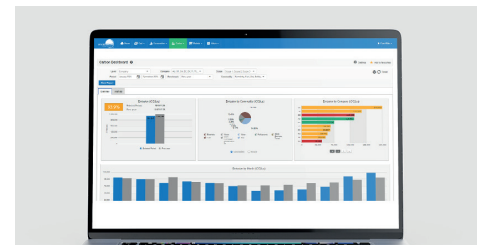

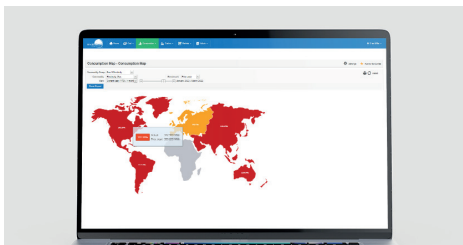

Inform your decisions through access to Montel Online to support your forecasting with spot prices and market analysis.

Streamline billing across multiple sites through use of a multi-lingual and global currency platform, creating a global or regional view.

Improve visibility of your hedging portfolio risk with clearer information to mitigate exposure.

Track your carbon reduction progress by monitoring emissions by source and scope. Use our reporting to provide public visibility.

Change the way you manage your energy & carbon reporting

Does your business use liquid fuels?

Check out our myWorld portal to help you manage your fuel (US only).
